**DETAILED ACTION*****Allowable Subject Matter***

1. Claims 4-16 and 19-20 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The Applicant canceled claims 1-3 and 17-18 and amended claims 4, 10-12, and 19, according to "Amendment and Response to Office Action" received August 30, 2004, and presented arguments in favor of allowance of the newly amended claims. The original 35 U.S.C. 102(e) rejection of claims 1-3 and 17-18 is no longer valid since these claims have been cancelled. With respect to the newly amended independent claims 4 and 19, the Applicant demonstrated to the Examiner's satisfaction that the 35 U.S.C. 103(a) rejection over the references of N. Dotan (6,407,373 B1) and Veneklasen et al. (6,610,980 B2) is not applicable to the Applicant's invention. The above mentioned references, as well as any other prior art, fails to disclose an apparatus and method for inspection and review of a substrate including a first subsystem for inspecting the substrate, a processor for identifying regions of said substrate for review, and a second subsystem for reviewing at least a portion of said regions, wherein both said first and second subsystems each comprises an electron beam microscope, wherein the inspection of the substrate is performed while the substrate is on a continuously moving stage, and wherein review images from said regions are grabbed "on the fly" by the apparatus so as to avoid a need to relocate said regions.

Therefore, the independent claims 4 and 19 are allowed. The dependent claims 5-16 and 20 are allowed by virtue of their dependence upon claims 4 and 19, respectively.
